# About us

Buggy Adventures is a brand new activity company, started on an old solid foundation by professionals who have been in the industry for decades.

We are a fully licensed tour operator mostly operating from Reykjavík and Geysir geothermal area, to wherever our guests want to go.

Buggy Adventures own and operate Buggies and offer short tours, day tours and longer tours, in cooperation with other travel partners. We welcome incentive groups, sales teams or just good friends looking for fun.

It is very simple if - you cannot find what you are looking for on our website, for we will make it happen for you.

Our most important asset is our highly specialized team of creative, professional staff, whose goal is to make your experience unforgettable.

Everyone in our cooperation teams have extensive experience in the tourism industry, and work according to the strictest safety standards. All necessary safety equipment is mandatory in all our tour and is provided by us on location.

# The buggy

Just imagine sitting shoulder to shoulder with your partner, zooming through the unique, vast and often moon-like landscape of Iceland. Getting up close and personal with the land of fire and ice, safely within the confines of the robust roll-cage and 4-point seat belts of the four-wheel drive buggy, has now become possible for just about everyone. If you're lucky you may have to use the winch, which each buggy is equipped with, and pull yourself out of a situation of the sticky kind. Since these buggies are road legal, getting between the fun areas on public roads is not a problem.

**Our buggies come equipped with all the goods needed for a real adventure, including:**

- ✓ Automatic transmission
- ✓ 2 and 4 wheel drive
- ✓ Differential lockers
- ✓ Double A-arm independent suspension
